

DSFCR

Danish Ski Federation Competition Rules.

These rules consist of 6 parts:

1. Introduction to the competition rules.
2. The International ski Competition Rules (ICR), joint regulations for alpine skiing, by the Federation International de Ski (FIS).
3. Particular conditions to the competitions rules for DSF (Danish Ski Federation).
4. Alpine Course Setting Specifications for U16 and Younger. Final (10/14/16)
5. FIS Specifications for Competition Equipment.
6. FIS & USSA Helmet Regulations, October 2015.

Where applicable the versions shall be the latest version published.

In case of inconsistency or discrepancy the fore rang shall be:

1. Particular conditions,
2. Alpine Course Setting Specifications for U16 and Younger. Final (10/14/16)
3. FIS Specifications for Competition Equipment.
4. USSA and FIS Helmet Regulations, October 2015
5. The ICR
6. The Introduction

Part one, *this section*, is the introduction to the Danish Ski Federation Competition Rules (DSFCR) and the underlying motivation and argumentation for the structure and particular conditions to the ICR.

The Danish ski federation (DSF) has as a precondition, that the rules shall support the two overall main ambitions of DSF. One ambition is to have the competition rules (CR) as base for competition of high international standard, when performing national championships and other comparable events - AND - the other is that alpine ski sport shall be accessible, with low entry barriers, to the general population.

To achieve the two goals, and to avoid conflict between the goals, the DSF have chosen to take outset in The International ski Competition Rules (ICR), joint regulations for alpine skiing, by the Federation International de Ski (FIS) and exempt or modify certain paragraphs and sections, to meet the ambitions of DSF.

These two goals do not always go hand in hand, whereas the rules in some sections are modified to find the best combined solution. As a consequence the early ski season races will be targeted towards recruitment events, and as the season

matures the level is to be raised gradually so that the National Championship is at the same level as a FIS compliant race, in any other ski nation.

For the course setting, the implications will be that the experienced athlete will perceive the event to be under required level at the start of the season and perceive the event to be as per the FIS rules at the end of the season.

This may result in that the competitors positions and results in the early season races may be different, than what would have been the case, if the courses were set strictly according to the ICR course setting rules. As a direct consequence the early season races can't be used as qualification races for international races, simply because the level and challenges cant be compared, as a race under FIS rules

The DSFCR have been made in this order to make it more appealing for entry athletes to participate, and still have challenging races, at international standard, for the experienced athlete, as the season mature.

Part two, is the *International Ski Competition Rules (ICR)*, joint regulations for alpine skiing, by the Federation International de Ski (FIS). These are the foundation of the DSFCR.

DSF will adapt any and all changes and modifications made to the ICR, unless paragraphs or sections are regulated under the particular conditions, found in part three of these competition rules. If no changes are made in the particular conditions then "FIS" in the ICR shall also mean "AKD" and/or "DSF" when reading the ICR.

Part three, is the *particular conditions to DSFCR*. The section has the modifications made by DSF to the ICR, to procure the DSFCR.

Part four, is the *Alpine Course Setting Specifications for U16 and Younger*. The course setting specifications are adopted from the USSA (Unites State Ski Association) and serves as a guideline for ICR rules for setting racecourses for U16 and younger.

Part five, is the FIS Specifications for Competition Equipment.

Part six, is the *USSA and FIS Helmet Regulations*, The specifications regulate the mandatory use of helmets.

3rd Particular Rules for the different Events

Introduction

TO fulfill the ambition, to have the competition rules as base for competition of high international standard, when performing national championships - AND - that alpine ski sport in Denmark shall be open, with low entry barriers, to the general population,

THE Courses in all disciplines will be set light in the beginning of the season to allow entry for new athletes, and gradually tighter strictly to the FIS rules at the end of the season or towards the national championships.

The implications will be that the experiences athlete will perceive the courses to be under required level at the start of the season and the courses to be as per the FIS rules at the end of the season.

This may result in that the athletes position in the early season races may be different than what would have been the case if the courses were set strictly according to the FIS courses setting rules, at the start of the season. As a direct consequence the early season races can't be used as qualification races for international races.

The DSFCR have been made in this order to make it more appealing for entry athletes to participate, and still have challenging races for the experienced athlete as the season mature.

807 Crash Helmets, refer to, part 3, the particular conditions for USSA and FIS Helmet Regulations

907 Crash Helmets, refer to, part 3, the particular conditions for USSA and FIS Helmet Regulations

1002.4 - Not applicable for AKD events.

1003.1.5 U14 and U16 will use the U16 course rules.

For U14 a test race have to be allowed in the final course. When time permits a test race may be given to U16 participants.

The timing of the test race will not be given. The athletes must, on an individual basis, at the start of the race, be informed that it is a test race and that safety is before speed.

USSA and FIS Helmet Regulations October 2015

DSF have modified the Helmet Regulation in SL and GS competitions. In combinations involving SL and/or GS these modifications shall apply to the specific discipline SL or GS only.

AKD/DSF strongly recommend that the FIS Helmet Regulations are followed to the extent possible to improve safety and reduce the risk of injuries.

For U8, U10 and U12 the participant have to wear a helmet that conform to recognized and appropriate standards such as CEH, Din 1077, ASTM F2040, SNELL S98 or RS98.

In GS "hard ears" are recommended but not required. It is solely the responsibility of the participants guardian to make the decision. AKD/DSF recommend any athlete to follow the FIS regulations.

For U14, U16, U18 and U21 the Helmet Regulation applies strictly to all racers in SG the only exemption is that CE marks may be the FIS RH2013 or the one prior to that.

In GS and SL the helmet shall meet any appropriate standards such as CEH, Din 1077, ASTM F2040, SNELL S98 or RS98, otherwise the rules applies.

AKD/DSF recommend any athlete to follow the FIS regulations.

Above U21, the participant have to wear a helmet that and conform to recognized and appropriate standards such as CEH, Din 1077, ASTM F2040, SNELL S98 or RS 98.

AKD/DSF recommend any athlete to follow the FIS regulations.
